Please stop being obsessing over sex with children. I know your girlfriend is under age that is disgusting. I want to hear about it. I'm sorry for your wife to sleep in a different bed than you. I'm sorry your penis is small and I didn't sleep with you have a wonderful life actually.

I don't care that's your problem not mine. Congratulations you're getting free money but you shouldn't be messing with me because I am now explicitly telling you not to honor the contract if it's my signature Then you are now receiving explicit instructions to discontinue all orders and forward those documents to me immediately if you're not gonna do that, there's no document because you're not following the orders, the contract I would assign

Jun 11 at 3:49 PM

Your Turing of to insults and lies because you have nothing left on

I have to documents with the payment is cashapp, Zelle, and PayPal (the most recent ones). I also have the dms from your instagram account instructing me to contact your father.

(845) 280-3476 • Jun 11 at 3:47 PM

I asked you to forward them an hour ago, a year and a half ago and several times in between

You have not done so it's only proves that you don't have them at this is a lie that you're just trying to get me riled up because that's what you like to do you like to waste time like a woman and therefore I am over the conversation thank you very much for proving that you're a liar and nothing more than a scam artist

bad you can't even speak you really aren't your report wife I can't imagine what it's like to be her and you get older that shed to sleep in because

Tik tok eight minutes waiting

And if you create another phone number, don't you really think that's a little level of creeper that's it's beyond Stalker? like anyone who do that to a girlfriend I love someone who doesn't know who they are I mean anyone would think oh god that guy is a fucking psychopath don't you think like if you change your phone number I don't know how many times this point I think I have 17 Saint of yours don't you think I'd be a little weird at least mine are consistent and maintain even the ones you don't think that exist anymore still exist. I accidentally left you on a well dug. This is a new phone number so I wouldn't know you're not editing this anymore. I don't give a shit just waiting for your your your your documents Here.

Jun 11 at 2:48 PM

somebody who pontificates quite so much you can't get to the point you can't fulfill any applications who lies cheats steals stares at me through a window and any number of things so you have a lot of ground to cover. I suggest doing it right now but that business plan so-called you have and also I'm not opening any file that you have sent to me on any native device of my own so they.

Is this how you conduct business that I don't wanna work with you? If this is how you conduct business get to work get your business done you've hurt my my my conditions doing a dumb if you don't do it who the fuck cares about you go the fuck away about a

Isn't it funny though how eager you are to jump in the bed with me so often it's not over business is done in my pants. You must really wanna hop on the sticks so fat bad you can't even speak you really aren't your report wife I can't imagine what it's like to be her and you get older that shed to sleep in because

discuss some thing else but if you don't have them, then I think our conversation is over any other questions

And I say this from the deepest darkest parts of my heart, the world is a lot better place when you're not in it, make sure you stay out of mine and possibly everyone else's

And you deserve every insinuation of that phraseology now do you have a contract in PDF of the account deposits or no yes or no if you have them for them immediately I'm waiting here for 10 minutes otherwise go fuck yourself

And yes You should find me delightful as you said many times I'm a fucking delight anyone who's my biggest fan and who is my strongest and most loyal follower and you are nothing but my follower at this point would know how delightful I fucking him so you don't need to repeat over to go over again how wonderful I am so please shut up and get a business or just shut up I would never go to business with somebody who pontificates quite so

into my hands before any more conversation can occur and most importantly, none of us is binding. I have the right to reserve or change any of this information at my will. I can refuse anything of it at my will, and I can just ignore anything you were saying in the future at my Will I have no reason to barter with terrorist.

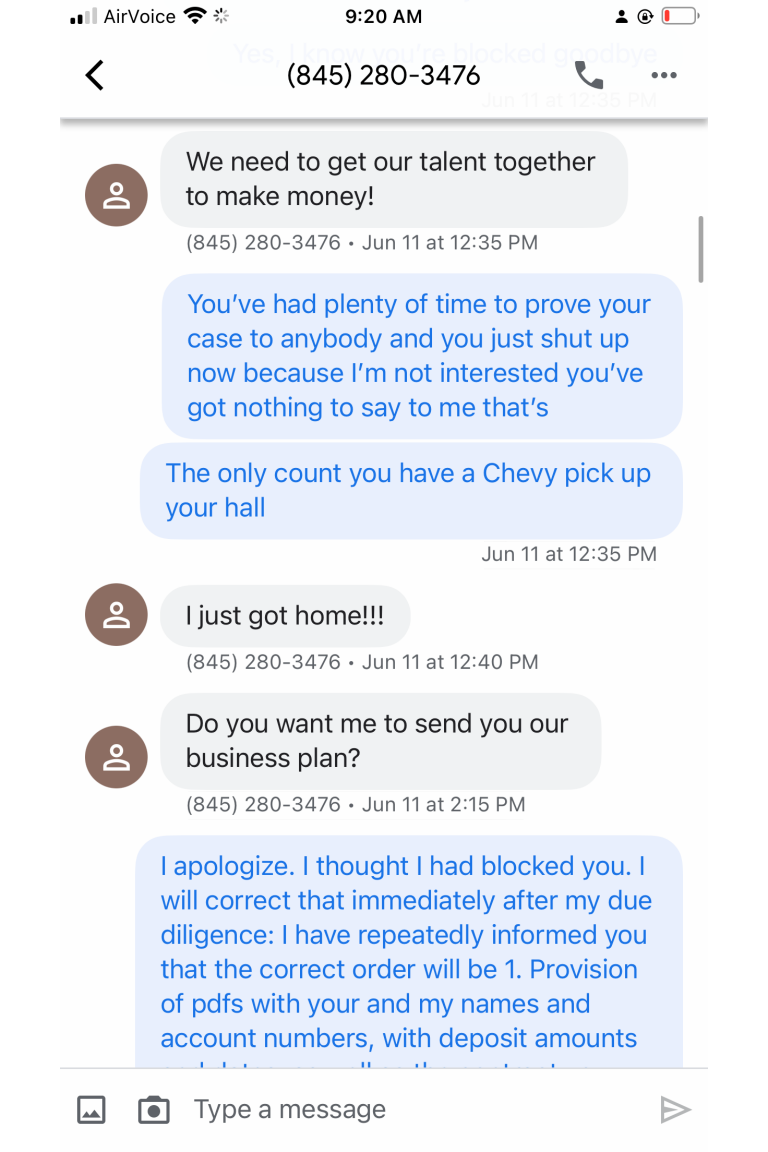

So do you have the PDF files of your so-called deposits for the account numbers names and the contractor came to you are at home as you claim so you must have access to them now as you said you would and your home office, so I am eagerly awaiting you have about 10 minutes to send it to me until such time. I have no interest in anything else you have to say so do you have them yes or no

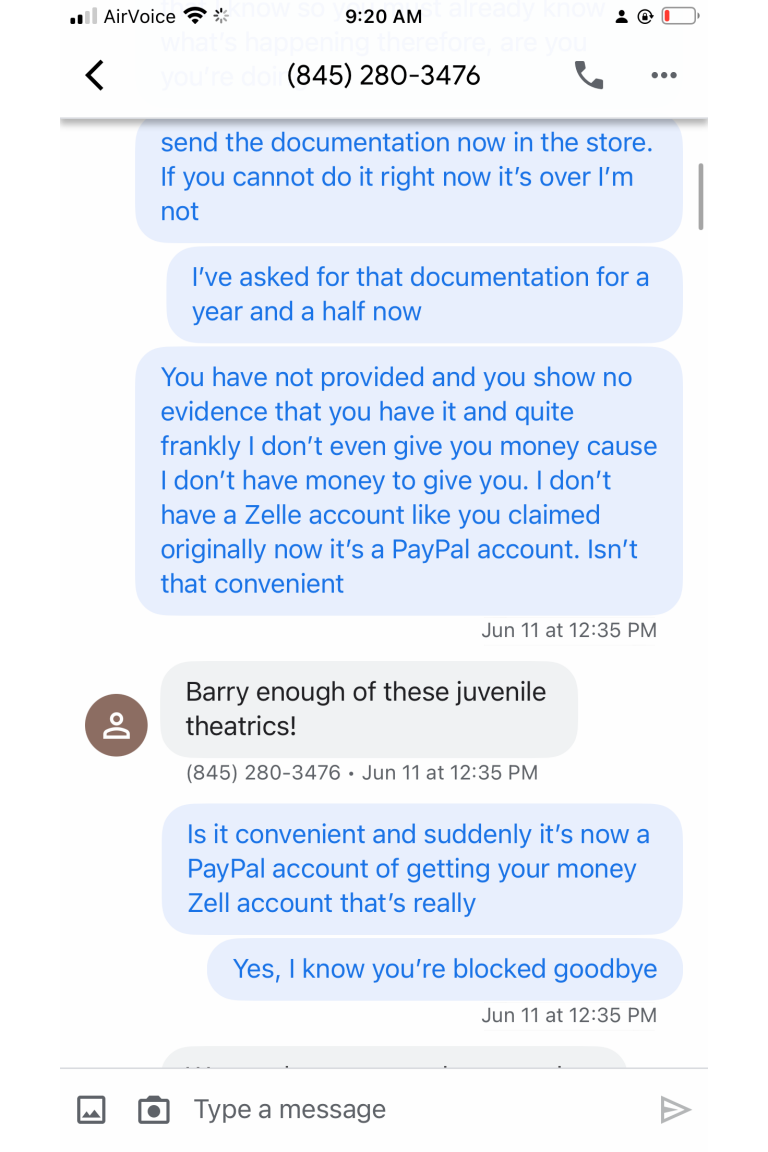

If the answer is yes, you should forward them now then we might be able to discuss some thing else but if you don't have them, then I think our conversation is over any other questions

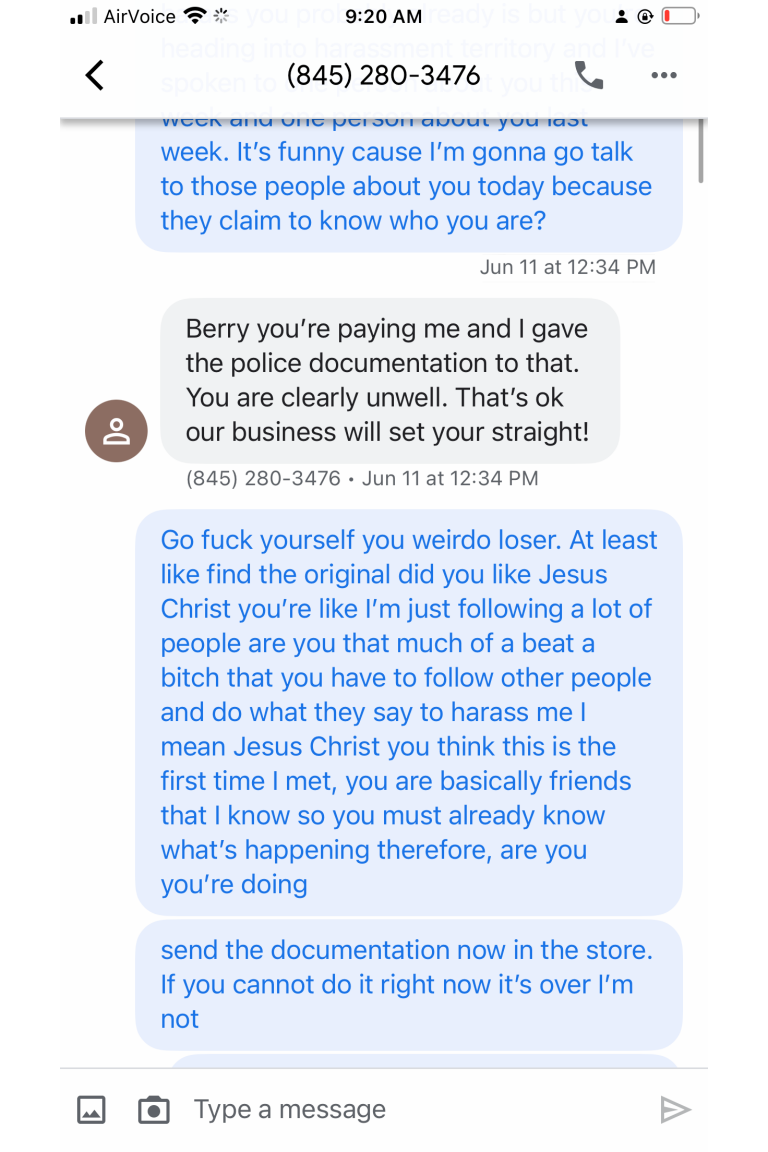

And I say this from the deepest darkest

that the correct order will be 1. Provision of pdfs with your and my names and account numbers, with deposit amounts and dates, as well as the contract you claim to exist with both of our signatures - it better be witnessed by a notary republic!. 2. Once I have reviewed them, along my lawyer and law enforcement, we can then have a scheduled (my schedule) Public meeting which will be closely supervised but you and I will be there without anyone else with us . Preferably not in a park or near children due to your urges. 3. Once we have met, I have ascertained your identity wirh photographic evidence and an audio recording, I will again review those with lawyers and law enforcement. 4. If by chance you happen to not be arrested by then, I will consider reading your business plan if for no other reason to laugh at it

But the first step - full Unredacted PDFs of accounts and contract need to pass into my hands before any more conversation can occur and most importantly, none of us is binding. I have

You have not provided and you show no evidence that you have it and quite frankly I don't even give you money cause I don't have money to give you. I don't have a Zelle account like you claimed originally now it's a PayPal account. Isn't that convenient

Jun 11 at 12:34 PM

Berry you're paying me and I gave

phone numbers and create a new email addresses. I have asked you not to contact me. I've asked you not to contact my family. I've asked you to leave me alone. You've gone out of your way to contact them and get a hold of them as well

I'm gonna say it again so that you're clear that you hear it do not contact me do not follow me around you not creeping my window. Do not think about me or anything. Do not contact my family do not speak to my family. Do not anything about me you can leave me in your history in your memory is something you never got to have
